***Information Disclosure Statement***

1. The listing of references in the specification is not a proper information disclosure statement. 37 CFR 1.98(b) requires a list of all patents, publications, or other information submitted for consideration by the Office, and MPEP § 609 A(1) states, "the list may not be incorporated into the specification but must be submitted in a separate paper." Therefore, unless the references have been cited by the examiner on form PTO-892, they have not been considered.

***Drawings***

2. This application has been filed with informal drawings, which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

3. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the emulsion type film, the means for providing date and time, the means for imprinting in the image, the means for imprinting outside the image, the means for providing exposure information, the digital storage medium, the optical disk, the removable memory card and the video camera must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

4. A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

5. The drawings are objected to under 37 CFR 1.83(a) because they fail to show the features listed above and the flow charts necessary to perform the various functions ascribed to the invention as described in the specification. Applicant merely provides a subdivided box having

various elements therein. Such a box does not set forth the interconnection between the various elements. Nor does such a box show the required switching elements to provide the selection of functions recited by applicant. Any structural detail that is essential for a proper understanding of the disclosed invention should be shown in the drawing. MPEP § 608.02(d). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

***Specification***

6. The abstract of the disclosure is objected to because the term "Inventor:" is inappropriate and must be removed. Correction is required. See MPEP § 608.01(b).

***Claim Rejections - 35 USC § 102***

7. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in-

(1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effect under this subsection of a national application published under section 122(b) only if the international application designating the United States was published under Article 21(2)(a) of such treaty in the English language; or

(2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that a patent shall not be deemed filed in the United States for the purposes of this subsection based on the filing of an international application filed under the treaty defined in section 351(a).

8. Claims 1-46 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Kimura et al. US Patent 5,913,078.
9. Claims 1-46 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Suzuki et al. US Patent 5,506,644.

10. Claims 1-46 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Honda et al. US Patent 6,304,729.

11. Claims 1-46 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Watanabe US Patent 6,164,839.

12. Claims 1-46 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Miyake US Patent 6,222,985.

13. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David M Gray whose telephone number is 703-308-1698. The examiner can normally be reached on M-T 7:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Russ Adams can be reached on 703-308-2847. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9318 for regular communications and 703-872-9319 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1782.

A handwritten signature in black ink, appearing to read 'David M Gray', with a large, stylized flourish extending to the right.
